

789C MineCool Cooler Range

- MineCool's industry leading range of Heat Exchangers are all manufactured to OES (Original Equipment Standards) and are a direct fit replacement to the original equipment.
- Minecool manufacturers Aftercoolers with redesigned Heavy Duty Manifolds and high-performance Cores for reliability.
- Tube & Shell bundle Oil Coolers are available for Transmission, Torque Converters, and Brakes & Engines, manufactured with high grade Copper and Copper Alloys.
- MineCool's all vacuum brazed Hydraulic Oil Coolers are built for high strength and great mechanical heat transfer capabilities.

INVENTORY CODE	INVENTORY DESCRIPTION	OEM PART NUMBER
MC10057	COOLER ENGINE OIL TUBE & SHELL CAT 773D 775D 785C 789C	7W-1713
MC10061	COOLER ENGINE OIL TUBE & SHELL CAT 789C 793B 793D	4W-5405
MC1007	COOLER ENGINE / TRANSMISSION OIL TUBE & SHELL CAT D10T D11N 777D 777F	4W-5056
MC11097	COOLER BRAKE OIL TUBE & SHELL CAT 793D	200-5972
MC2002	CORE RADIATOR FOLDED CAT 789C 793C (1001MM)	2W-5539

Why MineCool?

Australia's quality alternative for **aftermarket components** that offers market leading **reliability, performance and value.**

FIT FOR PURPOSE

MineCool components are engineered to keep your assets running for longer.

BUILT TO LAST

Our products are stronger and more robust, built to meet or exceed OEM outcomes.

UNMATCHED CONVENIENCE

We offer the best product availability and speed to market in the industry.

DEPENDABLE QUALITY

Our products are proven to perform.
