

D10R MineCool Cooler Range

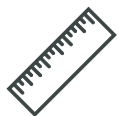

- MineCool's industry leading range of Heat Exchangers are all manufactured to OES (Original Equipment Standards) and are a direct fit replacement to the original equipment.
- Minecool manufacturers Aftercoolers with redesigned Heavy Duty Manifolds and high-performance Cores for reliability.
- Tube & Shell bundle Oil Coolers are available for Transmission, Torque Converters, and Brakes & Engines, manufactured with high grade Copper and Copper Alloys.
- MineCool's all vacuum brazed Hydraulic Oil Coolers are built for high strength and great mechanical heat transfer capabilities.

INVENTORY CODE	INVENTORY DESCRIPTION	OEM PART NUMBER
MC1003	COOLER, TRANSMISSION OIL, TUBE & SHELL, CAT D10R, D10T, 160H	2W-9978
MC4007ST	CORE, RADIATOR, AMOC, STEEL, CAT D10R (SHORT)	170-8541
MC4008ST	CORE, RADIATOR, AMOC, STEEL, CAT D10R AKT, D10R 3KR (LONG)	119-4774
MC10037	COOLER, TRANSMISSION OIL, TUBE & SHELL, CAT D10R, D10T	4W-5412

Why MineCool?

Australia's quality alternative for **aftermarket components** that offers market leading **reliability, performance and value.**

FIT FOR PURPOSE

MineCool components are engineered to keep your assets running for longer.

BUILT TO LAST

Our products are stronger and more robust, built to meet or exceed OEM outcomes.

UNMATCHED CONVENIENCE

We offer the best product availability and speed to market in the industry.

DEPENDABLE QUALITY

Our products are proven to perform.
