

## D11T GEB MineCool Cooler Range

- MineCool's industry leading range of Heat Exchangers are all manufactured to OES (Original Equipment Standards) and are a direct fit replacement to the original equipment.
- Minecool manufacturers Aftercoolers with redesigned Heavy Duty Manifolds and high-performance Cores for reliability.
- Tube & Shell bundle Oil Coolers are available for Transmission, Torque Converters, and Brakes & Engines, manufactured with high grade Copper and Copper Alloys.
- MineCool's all vacuum brazed Hydraulic Oil Coolers are built for high strength and great mechanical heat transfer capabilities.

INVENTORY CODE	INVENTORY DESCRIPTION	OEM PART NUMBER
MC4004ST	CORE, RADIATOR, AMOC, STEEL, CAT D11R 7PZ & D11T GEB / TPB	213-8188
MC6005ACR	COOLER, CHARGE AIR, COMPLETE ASSY, CAT D11T GEB, RH	528-0687
MC6005ACL	COOLER, CHARGE AIR, COMPLETE ASSY, CAT D11T GEB, LH	528-0688
MC10031	COOLER, ENGINE OIL, TUBE & SHELL, CAT D10T, D10T2, 777G	7C-0145
MC11003	COOLER, TRANSMISSION OIL, TUBE & SHELL, CAT D11T GEB	246-4988

### Why MineCool?

Australia's quality alternative for **aftermarket components** that offers market leading **reliability, performance and value.**

#### FIT FOR PURPOSE

MineCool components are engineered to keep your assets running for longer.

#### BUILT TO LAST

Our products are stronger and more robust, built to meet or exceed OEM outcomes.

#### UNMATCHED CONVENIENCE

We offer the best product availability and speed to market in the industry.

#### DEPENDABLE QUALITY

Our products are proven to perform.
