

793D MineCool Cooler Range

- MineCool's industry leading range of Heat Exchangers are all manufactured to OES (Original Equipment Standards) and are a direct fit replacement to the original equipment.
- Minecool manufacturers Aftercoolers with redesigned Heavy Duty Manifolds and high-performance Cores for reliability.
- Tube & Shell bundle Oil Coolers are available for Transmission, Torque Converters, and Brakes & Engines, manufactured with high grade Copper and Copper Alloys.
- MineCool's all vacuum brazed Hydraulic Oil Coolers are built for high strength and great mechanical heat transfer capabilities.

INVENTORY CODE	INVENTORY DESCRIPTION
MC3008	CORE RADIATOR MODULAR BOTTOM WIDE MINECOOL CAT 390-0131 793D FDB
MC3007	CORE RADIATOR MODULAR TOP WIDE MINECOOL CAT 390-0134 793D FDB
MC3006	CORE RADIATOR MODULAR BOTTOM NARROW MINECOOL CAT 390-0125 793D FDB
MC3005	CORE RADIATOR MODULAR TOP NARROW MINECOOL CAT 390-0133 793D FDB
MC60064CU	COOLER HYDRAULIC OIL REAR AXLE ALUM. CAT 209-7824 793D 793F 797B
MC11004	COOLER ENGINE OIL TUBE & SHELL MINECOOL CAT 243-5773 793C 793D
MC10079	COOLER, ENGINE OIL, TUBE & SHELL, MINECOOL, CAT 332-7331
MC1008	COOLER BRAKE / TORQUE CONVERTER OIL TUBE & SHELL MINECOOL CAT 7W-0205 770G 772G 824G 988B

Why MineCool?

Australia's quality alternative for **aftermarket components** that offers market leading **reliability, performance and value.**

FIT FOR PURPOSE

MineCool components are engineered to keep your assets running for longer.

BUILT TO LAST

Our products are stronger and more robust, built to meet or exceed OEM outcomes.

UNMATCHED CONVENIENCE

We offer the best product availability and speed to market in the industry.

DEPENDABLE QUALITY

Our products are proven to perform.
